

BillingPlatform Innovation Lab Billing Intelligence Center

Easily manage high volume billing and monetization processes

With this powerful tool you have immediate visibility into the areas of your billing operation that are critical to managing an enterprise financial system

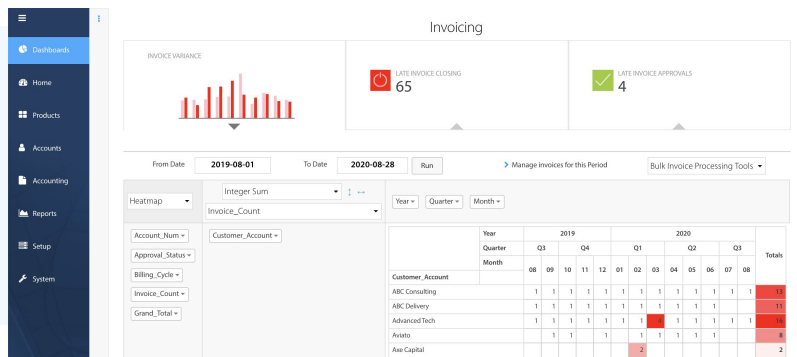

Configure thresholds and leverage the BillingPlatform intelligent analytics engine to highlight anomalies

- ✓ Spikes and dips in invoice counts month over month and year over year
- ✓ Late invoice closing and document generation
- ✓ Late invoice approvals
- ✓ Monthly variability in usage processing
- ✓ Unbilled usage
- ✓ Unprocessed alerts
- ✓ Subscription variances
- ✓ Over or under processed subscription charges
- ✓ Expiring subscriptions

Drill into the details with interactive data cubes that give you instant access to detailed information in multiple dimensions

Once you identify a problem, **take action** with built in functions that you can execute straight from the control center using an array of powerful bulk Data Management tools
